Special techniques

Changing colour: When changing colour at the button placket, the yarns are crossed to avoid holes at the transitions. Place the "old" colour over the "new" colour, continuing in this colour so the strands automatically cross.

Avoiding "a jump" in the stripes when changing colour: Work the transition as follows: Work 1 round in the "new" colour, then, before working the first stitch on the 2nd round, lift the first stitch of last the round in the "old" colour up onto the left needle and knit it together with the first stitch in the "new" colour.

Directions for knitting

The cardigan is worked from the top down. The front edges are worked simultaneously with the rest of the work, in 2 different colours.

Note

When changing colours in the stripes, let the colour not in use hang at the back at the work and let it follow up the side of the work to the next colour change. Be mindful not to tighten the yarn too much when changing back to the colour.
